Cadet, and the talent was right in it, as
Hodson on Cadet rode a great race, winning by more than a length. The horses
were hard to start, as each of —e riders
was doing his best to get off first. When
the flag fell Bernard, riding Brock, shot

Brock was still running strong, with
Sandy Brown neck and neck with him.
Turning the back stretch for the half,
Hobson brought Cadet from the bunch,
and rushed him out to catch the leaders.
Cadet responded, and showed first at the
heat, with Brock second, Sandy Brown
third. It was all over then, as Cadet

As one hundred and thirty-five dollars was the best bid offered on Prince Edward, who was put up first, he was taken down, and the Duke was never offered, as bidders were few and far between.

## IT IS ALL OVER NOW.

THE BIG DOORS OF THE EXPOSITION BUILDING CLOSED YESTERDAY,

President Wood Speaks in Hi h Terms of the Success of the Movement Lacerated by the Ferocious Bear,

The big Virginia Exposition of 1894 is The big Virginia Exposition of 1894 is now a thing of the past. The great doors swung heavily together last night at a o'clock, so far as the attendance upon regular attractions was concerned. The crowd at the Exposition yesterday was small, as the last day of a great extended movement nearly always has a small attendance. Those present, however, enjoyed themselves hugely, and the specialties, were, of course, drawing cards.

ever, enjoyed themselves hugely, and the specialties, were, of course, drawing cards.

In conversation with President Wood, of the Virginia Agricultural and Mechanical Society, as to the result of the Exposition, he said: "I cannot as yet speak as to the financial success of the affair, further than that I think we are going to come out all right. The figures nave not been made up yet, and many money matters remain to be settled before I can say what the result will be. I feel very much gratified, however, and the Exposition, as a whole, was in my opinion one of the most successful we have ever had in Richmond. The weather, with the exception of a couple of days, was excellent, and the attendance fully up to my expectations. I think the average attendance must have been close to ten thousand. On several days there were a great many more people on the grounds. Last Tuesday and Wednesday there must have been fifteen thousand people on the grounds. Everybody seemed to be thoroughly satisfied with the attractions, and I have heard nothing but compilments on all sides. The Exposition has certainly been a decided advantage for Richmond. The big crowd that came to the city spent a good deal of money, and helped to make business more lively."

spent a good deal of money, and helped to make business more lively."

PRAISES ON ALL SIDEA.

I talked with quite a number of people as to their impression of the Exposition, and, without exception, they all had nothing but words of praise for Virginia's Exposition. Many of the expressions heard were particularly complimentary, and reflected a high degree of credit upon the officers of the Exposition.

President Wood, Secretary Owens, and other officers of the Exposition, certainly deserve a deal of credit for their constant energy and enterprise. They have done all in their power to make the affair a success, and they have been ascourteous, considerate and accommodating as one could expect from anybody. To the newspaper men they have been particularly kind.

The office of Secretary Owens was again crowded with exhibitors and visitors yesterday, and all the information asked was cheerfully given, as usual.

THE BEAR ATTACER THEM.

Great excitement was created on the

Great excitement was created on the Exposition Grounds yesterday morning about 10 o'clock, when the "Tammnian Devil," a very feroclous species of the sloth bear, broke through one of the sldes of a shifting-box in Wombwell's wild animal show, and perambulated about the tent, growling and snarling at the people in the tent. The twenty-five or thirty spectators became panic-stricken, and rushed in all directions from the tent. Lorenzo, the lion tamer, and Dick Viscenzi, two of the attaches of the show, chased the bear around the tent, and

There was another lively chase after the bear was driven into the tent, and excitement ran high. The beast broke out for the second time, paraded the grounds and created great alarm. When he was gotten back into the tent again Raymond Page, one of the showmen, attempted to strike the animal with a pickaxe, and the bear attacked him, and bit his hand very badly, lacerating it painfully. Page stuck to his post, however, and swas assisted by young Herman, another attache of the show. Both of the men exhibited a great deal of courage and presence of mind, Herman's finger was bitten off, and he narrowly escaped being killed by the enraged beast. Finalty twenty men succeeded in forcing the bear back into his cage.

# THE LAST DAYS RACING.

CADET, RIDDEN BY HOBSON, CAP-TURES THE GENTLEMEN'S RACE.

Iron Bar Wine Three Straight Heats. Gipsy Gets the Mile Dash\_The Steeds at Stell Have a Go.

the races at the Virginia Exposition race course on yesterday. There were probably one thousand people to witness the finishing of Thursday's programme.

The races were close and exciting, and the gentlemen's race was the most interesting contest. The bookies might have had a harvest in the past four days, but the one solitary gent of ticket days, but the one solitary gent of ticket that showed up on yesterday was snowed under, the talent getting all the best of it. Everybody seemed to be on the right tack for peking the winners, and the talent was "away up," with money to burn last night.

It was a great pity that a match could not be made between Fighting Creek and Hustler, as all lovers of the running horse were anxious to see which was the fastest horse. Following were the events:

### THE TROTTERS.

THE TROTTERS.

First race—2:33 trot, mile heats, best three in five, purse \$200—Chariey Moore, entered by Joe Gouse, Caldwell, O.; Julia O. J. C. Smith, Richmond, Va.; Nelly Jewill, G. M. Harden, Jr., Durham, N. wints. W. Bass, Rolley, Va. Wilful Winnie, John T. Biggs, Reliaville, N. C.

Two very interesting heats of this race were trotted on Thursday, Julia O. won them both, after a very exciting and close finish in the second heat, being pushed all the way by Lala, who took second place in both heats.

The third heat of this contest was the first entry on the card yesterday, and proved of as much interest as the others. After several moments of tiresome secring, they were gotten away from the pest, Julia O., the winner of the two heats, showing in front of her field at the eighth pole, with Boston a half-length away, and the others well up, all trotting in a bunch. At the half, Boston forged ahead of Julia, and was leading by a half-length, with Julia going easily under a tight rein. Coming around the backstretch at the three-quarter pole, Junia O. was again in front, with Boston showed first under the wire, with Julia O. and Lila neck and neck. The place was given to Julia, with Lila third, Charley Moore fourth. Time, 2:261-4.

Fourth and iast heat—Boston got well off ahead of hils company when the word was given, with Julia O. close in his rear, trotting with a long, easy stride, doing her work beautifully. Boston kept the first place until just after passing the half-mile post, he broke badly, going clean off his feet, and Julia O., comissing the half-mile post, he broke badly, going the half-mile post, he broke badly, going the first place until just after passing the half-mile post, he broke badly, going the first place until just after passing the half-mile post, he broke badly, going the half-mile post, he broke badly, going the half-mile post, he broke badly, going the stants, and won the heat without difficulty, with Lila a close second, and Charley Moore third, Boston fourth, one hundred and fifty dollars, the first money, was taken by Julia O., second money by Lila, third by Charley Moore, and fourth by Boston. Time 2:241-4. B.cycle Races.

One of the special attractions at the Exposition yesterday was the bicycle races. Although a very small crowd stayed to see the programme carried out, they were interesting and closely contested from the first event on the card until the last rider had passed over the tape at the finishing post.
